MOTION CARRIED UNANIMOUSLY.

VII. Discussion and Action on Proposed Rules

Mr. Michael Wier, Land Surveyor, stated there has always been room for disagreement between surveyors; one group has always wanted mandatory recordation of all maps and the other group opposed. The Material Discrepancy Law resulted as a compromise to the attempt of twenty years ago to pass a law requiring all maps be recorded. This law is adequate and it is being complied with in most cases when it is not enforcement action occurrence. Members of the Enforcement Advisory Committee cannot readily agree on what the existing law means. Standard #10 should be deleted completely; this is an effort to accomplish through the Board what they cannot get passed through the State Legislature. He stated that it had been suggested that standard #10 represents the consensus of land surveyors in Arizona; this is absolutely not correct. Most land surveyors are not members of APLS and very few members are aware of the content of the proposed standards. Mr. Wier stated he had listed in his letter to the Board some of the reasons why all maps should not be recorded. He asked that other land surveyors' opposition be read into the record before the Board makes a decision. He stated standard #9 is a good idea, however, he felt that forcing a client to pay for a map if he did not want or need one was not fair. He also stated that it is not necessary to require a scaled drawing.

Mr. Kesler stated he would address Mr. Wier's comments. He felt that it was imperative that paragraph 8 of R4-30-301.A be read in its entirety. This is an attempt by the Board to adopt standards for purposes of handling enforcement problems. MOTION CARRIED UNANIMOUSLY.

Mr. Robert Fish stated that he, David Horner and Eugene Skelly, Land Surveyors, met and formulated a letter to the Board. He stated that they had reviewed the proposed Minimum Standards and felt that some of the standards, such as #9 and #10, would probably raise objections from some registrants. However, no significant impact will

ensue on their own practices by the application of any of the terms outlined in the proposed regulations if they are adopted. In general, the document should be well received by all competent surveyors. No regulation when first put to the test in actual practice is found perfect.

Mr. Dennis Brady, Land Surveyor, stated that he had not received any information, until recently, that Mr. Kesler said had thoroughly been distributed; therefore, not all land surveyors have access to the proposed minimum standards. He stated he agreed that standard #9 needs revision and #10 deleted or reworded substantially. It is not necessary to record all surveys.

Mr. Palmer wondered how Messrs. Wier and Brady would suggest to reword standards #9 and #10.

Mr. Brady stated that in #9 "The land surveyor shall prepare..." should read "...may or should prepare...; not a mandatory statement.

Mr. Kesler stated he did not have a problem with changing the word "shall" to "should."

Mr. Wier stated he did not agree and wanted to suggest that "shall prepare a scaled drawing" be deleted and substituted with "may prepare a drawing."

Mr. Allen wondered if the adoption of the Minimum Standards could wait until further research was completed.

A Rules Committee meeting was scheduled for March 6.

Mr. Palmer stated that he was asked at an NCEE meeting whether the technical schools' technical education for engineers was comparable to more than two years of actual engineering studies. He wondered if the Board should reconsider the three-year allowance for technical schools.

Mr. Kesler moved and Mr. Palmer seconded to adopt the proposed rules draft with the exception of R4-30-301.A(8), the allowance for technical schools and R4-30-222.A(8).  
MOTION CARRIED UNANIMOUSLY.

VIII. Mr. Kesler moved and Mr. Jacobs seconded to adjourn.  
MOTION CARRIED UNANIMOUSLY.

IV. Public Comment

This discussion was heard under "Adoption of Final Draft of Rules."

V. Discussion and Action on Adoption of Final Draft of Rules

Mr. Mlnarik stated the Rules Committee held meetings March 6 and 16 for a final recommendation to the Board. He stated that AIA had made a request on Article 3 R4-30-301. As a result of their expressed concern the committee recommends that the following sentence be added to R4-30-301.A(3.a.) before the last sentence: "Arizona registrants shall seal documents only after receiving permission from the out-of-state registrant."

Mr. Mlnarik also stated that it was the Rules Committee's recommendation that the Board adopt the Minimum Standards for Arizona Land Boundary Surveys as amended by APLS. If such standards are adopted, the date should be inserted on page 99 of the Rules draft.

Mr. Mlnarik asked Mr. Dalrymple whether the Minimum Standards would be part of the review by the Governor's Council. Mr. Dalrymple stated that his understanding was that the standards would not be a part of the review, however, they do request a copy.

Mr. Tallak D. Maakestad, Land Surveyor, stated that he, as well as other land surveyors, was in favor of the Minimum Standards.

Mr. Ronald W. Platt, Land Surveyor, stated he also was in favor of the Minimum Standards. Mr. Platt referred to his letter on R4-30-301.11 concerning A.R.S. 32-143 which was currently awaiting an opinion from the Attorney General. If it is the intent of the Board that if the registrant is in a gray area of the definition, then he may practice outside his profession, it should state it as such.

Mr. Blair C. Meggitt, Land Surveyor, stated that he also was in favor of the Minimum Standards. He believed these standards would serve as a tool and guideline to judge a case.

Mr. R. Gregg Dodson, President of APLS and Land Surveyor, stated APLS appreciated the Board's work.

Mr. Mlnarik moved and Mr. Kesler seconded to amend R4-30-301.A(3.a.) by adding "Arizona registrants shall seal documents only after receiving permission from the out-of-state registrant," and adopt the Minimum Standards for Arizona Land Boundary Surveys, and that the date on page 99 be identified as March 17, 1989 as the result of the adoption of the standards. MOTION CARRIED UNANIMOUSLY.

VI. Recognition of Board Service Awards

Dr. O'Bannon presented Mr. Mlnarik with a service plaque for his time as chairman of the Board during 1987-88.

D. Site Planning - Professional Status of Architects, A.R.S. 32-101.B(3)

Mr. Kesler stated that he believed that the City of Yuma has taken upon itself to take authority from the Statutes.

Mr. Chann moved and Mr. Kesler seconded to send letter to the City of Yuma with comments from Messrs. Bernal, Chann, Allen and Mlnarik with respect to site planning. MOTION CARRIED UNANIMOUSLY.

E. Use of Seals

Mr. Kesler moved and Mr. Palmer seconded to send a letter to Mr. Augsperger stating, "The Board believes an affidavit prepared by a registrant containing professional information is a professional document and must be sealed. Conversely it does not feel a deposition requires a seal since oftentimes the registrant has no control when the final deposition is typed, he is under oath and the document is a question and answer situation not "prepared" by the registrant." And that it be included in the next newsletter. MOTION CARRIED UNANIMOUSLY.

F. Conflict Between Engineering and Land Surveying Practices

Mr. Kesler stated that this item was continued from the last Board meeting subsequent to Attorney General's opinion.

Mr. Ronald Platt, City Land Surveyor for Tucson, stated that the question in his letter was directed to engineers signing right-of-way plans. He referred to A.R.S. 32-143 and stated that the engineers' argument was that right-of-way work was "necessary and incidental" to their projects. He said that right-of-way work is land boundary retracement work.

Mr. Bernal moved and Mr. Palmer seconded to table this item until next meeting when an opinion from the Attorney General's office will be forthcoming.

G. Other Case Action

Mr. Motomatsu stated one Enforcement case had been prosecuted resulting in one year probation and a \$150.00 fine.

H. Staff Report on Discussions with Utility Companies Regarding "Engineering Services"

APS and SRP representatives stated they are willing to have their engineers discuss with an AD HOC Committee from the Board the various types of services they offer their "customers." A meeting will be scheduled for this purpose.

VIII. Evaluation Committees Report

Mr. Kesler moved and Mr. Palmer seconded to accept the Evaluation Committees Report. MOTION CARRIED UNANIMOUSLY.

MOTION CARRIED UNANIMOUSLY.

X. Standing Committee Reports

A. Education and Examination

Mr. Palmer stated that he did not have a report of his committee.

B. Legislative and Rules

Mr. Mlnarik stated the rules portion had been covered under "Adoption of Final Draft of Rules."

Mr. Dalrymple stated Bill 1402 had been introduced to the Legislature by Marstons' School Supplies. A change in the law would have exempted black line drawings and space holder drawings prepared by either contractors, owners, suppliers, i.e., nonregistrants, from the requirement to have an architect on public work projects. The bill passed 10 to 0 in the House of Representatives. AIA is formulating a plan to try to stop it.

Eleanor McNamara, AIA, stated they had met with Senator Usdane, President of the Senate, and he agreed to hold until it was clarified. Not one architect who was contacted knew what the language meant.

C. Budget

Mr. Kesler reported there were problems with the budget, particularly under travel. He also stated that it is the Attorney General's feeling that the Board should not be using hearing officers on licensing formal hearings.

Mr. Dalrymple was directed to request a supplemental budget immediately.

XV. Other Business

A. Discussion of Municipalities Electrical Codes (Conflict with State Statute)

MOTION CARRIED UNANIMOUSLY.

B. Discussion of Mr. Jacobs' Report on ABET Visit to Glendale Community College

Mr. Jacobs reported that he was invited in November to observe NCEE's reaccreditation of Glendale Community College's engineering technology courses. He stated it was a very educational experience and he highly recommended it.

Mr. Allen stated that the discussion at the WCARB meeting was that the C/A.R.E. has been a significant success.

Mr. Allen moved and Mr. Chann seconded to recommend the first press release that AIA was proposing to send out. MOTION CARRIED UNANIMOUSLY.

Dr. O'Bannon asked Mr. Dalrymple for a report on applicants with degrees since 1983 for next meeting.

F. Discussion of Messrs. Allen and Chann's Report on WCARB Conference

Mr. Allen reported that Phoenix would be a grading site for the design portion of the national exam in June. He asked to go through the one-day grader course to learn about the grading process. He stated that Arizona was recognized nationally as a leader in enforcement actions. A short seminar on Board member representation at exams was held. He also stated that the licensing of Interior Designers was discussed.

Mr. Chann stated that one of the things he found interesting was the comparison of states' budgets; Arizona was one of the lowest and yet accomplished more in enforcement.

G. Discussion and Action on Multiple Choice Questions on Engineer Exam

Dr. O'Bannon wondered about the number of multiple choice questions on the Engineer Exam. Ms. Douglas stated Civil, Sanitary and Structural had twelve questions including three multiple choice for the morning exam and twelve questions including four multiple choice for the afternoon exam. III. Adoption of Minutes - March 17, 1989

Mr. Chann moved and Mr. Palmer seconded to adopt the minutes of March 17, 1989. MOTION CARRIED UNANIMOUSLY.

IV. Public Comment

Mr. Clifford J. Frey represented Mr. Robert A. Freeman in his disciplinary case #88-122. Mr. Frey stated that Mr. Freeman had signed the proposed consent order and agreed with the Advisory Committee's recommendation except for the amount of restitution. Mr. Freeman is willing to pay the complainant \$9,000 instead of \$33,000 since the project could be done aesthetically in a proper manner with wood instead of steel.

Mr. Palmer moved and Mr. Allen seconded to table this case until next Board meeting when additional evidence would be presented. MOTION CARRIED UNANIMOUSLY.

Mr. Chann asked Mr. Lee for suggestions on the process of restitution; the Board seemed uncomfortable with or unable to agree on amounts.

Mr. Lee stated it was within the discretion of the Board to decide when restitution was appropriate, based on the individual situation. He stated there are no specifications or guidelines within the statutes on how to measure the amount of damages, however, the Board should receive sufficient evidence, e.g., written estimates, bids and/or peer analyses, to feel assured that the amounts being requested as restitution are appropriate.

Mr. Lee stated that while the Board has concurrent jurisdiction, the primary jurisdiction over money lies with the court system. In the case of a civil action, the court may direct the Board not to render an order of restitution. However, in the absence of civil litigation, the Board has the authority to render an order. Whoever wants to rely on the Board's findings are entitled to do so and the court has to accept the Board's action.

Mr. Lee cautioned the Board on making a blanket policy of never utilizing the statutory authority given the Board.

Mr. Lou Jekel represented Mr. John S. Malahy in his disciplinary case #86-179. Mr. Jekel stated that his client felt the penalty recommended by the Advisory Committee was too severe; they believe that the punishment does not fit the crime. Mr. Jekel was proposing a peer review in which Mr. Malahy would be supervised as necessary, pay a \$2,000 Administrative Penalty, participate in all recommended educational programs and also keep his livelihood.

Lisa Gervase, Assistant Attorney General, stated she had prosecuted Mr. Malahy's hearing and believed his was a case of too-little-too-late. Mr. Malahy's case is two and a half years old in which he had opportunity to hire an attorney prior to this time. There was substantial evidence at his hearing that Mr. Malahy signed and sealed a certificate that the swimming pool in issue was built in accordance with his plans which is clearly not true. Ms. Gervase urged the Board to adopt the Hearing Officer's findings, conclusions and recommendation.

Mr. Chann moved and Mr. Bernal seconded for a 24-month restriction from consulting Mechanical Engineering, 12-month peer review and a \$2,000 Administrative Penalty. One abstention. MOTION CARRIED.

v. Recognition of Board Service Awards

Mr. Lendrum was not present to receive his award, therefore, Mr. Dalrymple was asked to deliver it.

VI. Enforcement Matters

A. Disciplinary Actions

- 1. & 4. C 86-094 and C 86-231 BTR vs. James R. Abney, Architect #04852  
Sealing plans not prepared by himself or his bona fide employee; failing to apply technical knowledge and skill; engaging in practice outside his category of registration; aiding and abetting (A.A.C. R4-30-301(A)(3)(7)(10), A.R.S. 32-125(C) and 128(B)(3))

Mr. Abney was present to dispute the allegations against him. He stated none of his plans have ever been rejected by the City of Phoenix Building & Safety Department as the Hearing Officer claimed in his report. He said the state's witnesses were critiquing his preliminary and not final plans even though they were sealed. Mr. Abney stated that at no time was there any compromise of public safety involved.

Mr. Allen moved and Mr. Chann seconded to accept the Hearing Officer's recommendation of a 5-year probation, practice restriction to architecture only, peer review on five projects per year for five years and a \$2,000 Administrative Penalty. MOTION CARRIED UNANIMOUSLY.

- 2. C 86-163 BTR vs. Tommy F. Rader, P.E. (Civil) #06586, (Structural) #07589, L.S. #16184

A meeting was held with APS and SRP representatives to find out what they were doing during these audits and whether or not it constituted the practice of engineering. The Ad Hoc Committee found that that particular case did constitute the practice of engineering. The Committee feels that there is a problem with these audits; however, the utility companies feel that they're offering these services to their customers and that they should be exempt. They suggested to form a group of representatives from utility companies, registrants and others affected by this to study the statutes and determine a recommendation to the Board and the Legislature, if necessary, to resolve the issue.

It was the consensus of the Board that the Ad Hoc Committee meet with the utility companies and report to the Board at the next Board meeting.

Mr. Jacobs moved and Mr. Chann seconded to adopt the minutes of June 2, 1989. MOTION CARRIED UNANIMOUSLY.

IV. Public Comment

Mr. John Blough, Engineering Manager of General Motors Desert Proving Ground in Mesa, Arizona, stated that his company did not have a registered engineer at the site. Mr. Blough invited the Board to visit the Proving Ground to study the nature of the work and decide whether it is

professional quality, or for a Board member or registered professional from another company like Motorola to be the company's mentor and review the facilities and work, or for Legislation to amend the rule which states "must work under a registrant."

Mr. Mlnarik stated that the proposed Rules begin to address this issue. It allows for a program like that of the Architects' IDP.

V. Evaluation of Application - David W. Ellis

Mr. Ellis asked that the Board consider his qualifications and grant him registration without an examination. He stated he had a B.A. in marine engineering, he's taken a 2-day written comprehensive examination with the Marine Coast Guard, he worked in the power plant of Boston Edison chemical lab, joined APS in 1963 as junior engineer, and in 1982 was promoted to vice president of gas operations until APS sold to Southwest Gas in 1984. Since 1984 he's served APS as vice president of research development, vice president of marketing and energy management and vice president of engineering, supervising 450 professionals.

Mr. Palmer stated he had reviewed Mr. Ellis' application for electrical engineer registration, however, his experience was not in electrical engineering and his education was at Massachusetts Maritime Academy which is not an ABET-accredited school.

Mr. Palmer moved and Mr. Bernal seconded to waive the EIT and hold Mr. Ellis for the Principles and Practice division of the exam. MOTION CARRIED UNANIMOUSLY.

IX. Standing Committee Reports

A. Education and Examination

Mr. Palmer read a letter from Guam to Governor Mofford inviting engineers from Arizona to the 1990 NCEE meeting in April.

Mr. Palmer asked that a meeting be scheduled to discuss the consistency of evaluation procedures.

B. Legislative and Rules

Mr. Dalrymple stated that applications, examinations and renewals had been increasing at a rate of 5% per year since 1982. During the 1986-87 budget they began leveling off and in 1988-89 there were fewer applicants, renewals and examinees than in 1987-88. Therefore, if fees aren't increased the Board will be bringing in less money than needed to fund the Board at its current level of operation. He stated that the Governor's office advised the Boards to set their budgets at 4% above the previous year to maintain services. The 1989-90 budget recommendation of \$709,000 contains the 4% increase plus \$13,000 in equipment needed, however, it does not include increase in staffing level nor increase program levels; the 1990-91 proposed budget request is \$770,000. The projected revenue in 1990-91 is \$1,000,100; this is an excess of over \$100,000. The figure would drop to an excess of \$18,000 in 1991-92 based on the assumption that before the end of 1992 the Board would have to increase staff by three.

Mr. Mlnarik recommended another rules public hearing be held. Mr. Dalrymple stated that the Rules were presently before an Executive Budget Office analyst. If during this initial review there are no serious objections to the proposed rules, then they will be submitted to the Governor's Regulatory Review Council for review and possible public hearing, then go back to review by the EBO on a formal basis and then to the Attorney General's Office on a formal basis.

A public hearing of the Rules is to be scheduled in either late October or early November.

C. Budget

Mr. Dalrymple projected things were going to flatline for at least the next two years. This year the Board has the ability to interchange monies.

Mrs. Eleanor McNamara, AIA Executive Director, stated that the Association had been successful in getting 74% of membership dues. She felt that an increase in renewal fees would be strongly and positively considered by AIA members.

Mr. Stanley Svatora, APLS Executive Director, stated he felt that in order to keep the Board operating in the present level, the increase was well worth it.

Mr. Mlnarik moved and Mr. Chann seconded to increase application fees from \$75 to \$90, MOTION CARRIED UNANIMOUSLY; Mr. Palmer moved and Mr. Allen seconded to change the renewal fee from \$63 to \$126, 5 ayes, 1 nay, MOTION CARRIED; Mr. Mlnarik moved and Mr. Bernal seconded to increase examination fees to cost plus \$20, MOTION CARRIED UNANIMOUSLY.

X. Request for Formal Hearing

A. James I. McCausland

Mr. Bernal moved and Mr. Palmer seconded to grant Mr. McCausland a formal hearing with a hearing officer on the denial of his application. MOTION CARRIED UNANIMOUSLY.

and to send the following for regrade:

William Earl - Structural  
Joe Martinez - Civil

MOTION CARRIED UNANIMOUSLY.

XII. Other Business

A. Discussion of NCARB Annual Meeting June 24-28 in Boston, Massachusetts by Earl Chann

Mr. Chann reported that there were 472 total attendees; 153 delegates, 35 Board Administrators and 155 spouses with 53 jurisdictions represented. The highlight of the meeting was NCARB's agreement to accept the California Architectural Registration Exam (C/A.R.E.).

People who have applied for NCARB certificate will be given oral examinations covering the deficiencies in the C/A.R.E.. Mr. Chann went on to say that by 1992 NCARB proposes the exam will be totally computerized. There are 3800 IDP record holders. He stated he was on the Education Committee with NCARB and they were moving very quickly toward the requirement of professional degree before taking the examination. NCARB also realizes that California and Arizona would probably never get this passed through legislation. One of the graders informed him that out of 300 design exams he graded, 11 passed. Thirty percent are passing overall, however, of examinees taking exam for the first time, 40% are passing; it is the examinees taking the exam for the second, third, and more times that bring the percentage down.

Mr. Palmer stated he had attended the NCEE meeting in Alabama. He reported that NCEE had changed its name to NCEES to include the land surveyors. Fifty percent of the exam will be multiple choice questions, eventually going to 100% and finally computerized. He also stated that because of the 3-day window for the examination, people were taking more than one exam in different states. NCEE has asked that everyone give their exams on the same 2-day period. Mr. Palmer moved and Mr. Bernal seconded that the Board conform with NCEES's policy of a 2-day window for the examination. MOTION CARRIED UNANIMOUSLY.

- B. Discussion and Action on One Signature (Signature Stamp) on Certificates

Discussed under F.

- C. Discussion and Action on "Informal Interview" Process of Complaint Investigation

Tabled until December meeting.

- D. Discussion and Action on Assistant Attorney General's Evaluation of R. Connin's Suspension of Colorado License

Mr. Allen moved and Mr. Palmer seconded to have an Enforcement Advisory Committee make a recommendation to the Board. MOTION CARRIED UNANIMOUSLY.

E. Discussion and Action on Association of State Board of Geology Meeting

Mr. Dalrymple stated that a group of states were attempting to create an association for geologists-registering states. They have invited the Board to attend their meeting and participate in their examination and reciprocity programs.

Mr. Allen moved and Mr. Mlnarik seconded to authorize the Executive Director to attend meeting. MOTION CARRIED UNANIMOUSLY.

F. Discussion of Possible Legislative Changes to Board Statutes

Mr. Dalrymple brought up several changes that the Board has asked to take before the Legislature - contracting out the administration of examinations, education requirement for qualification of examination, realignment of Board, inequities of Board appointments, and one signature on certificates - however, the consensus of the Board was that it would hurt the Board more than it would help to go before the Legislature with these proposed changes.

Mr. Mlnarik moved and Mr. Palmer seconded not to proceed with any legislative action on these proposals. MOTION CARRIED UNANIMOUSLY.

Staff was asked that they prepare a policy statement on peer reviews on applicants' experience and have Messrs. Allen, Palmer and Bernal review it, and that they supply the Board with a breakdown of applicants with degrees by discipline and percentage of passing examinations for the past three years.

G. Discussion and Action on Clarification of 3/17/89 Land Surveying Standards Implementation Date

The Attorney General's advice was that even though the Standards were adopted 3/17/89 they are considered a part of the Rules and therefore should go into effect when the rest of the Rules have been adopted.

H. Discussion on the Business License Information Center Questionnaire

The consensus of the Board is that the Board licenses individuals and not businesses and staff should respond to their questionnaire to that effect.

I. Discussion and Action on Review of Architect Examination

NCARB notified the Board that it was violating the contract by making examination questions available to the examinee to review after failing. Mr. Dalrymple suggested meeting with Messrs. Allen, Chann, Mlnarik, O'Bannon and Lee to discuss the Administrative Procedures and make the necessary changes.

J. Discussion and Action on Arizona Examinees Taking December 1989 Architect Examination in Other States

Ms. Douglas stated NCARB is offering in December 1989 the Building Design and Site Design Graphic Examination, however, Arizona won't be giving this exam until December 1990. NCARB is charging a \$50 proctor fee which the Board cannot afford to pay.

The Board directed staff to contact other states to see if they'll accept proctoring fees from people taking that state's examination.

XIII. Lapsed Registration List

Mr. Allen stated that he had contacted Mr. Edward Sawyer #08059 and he agreed to pay up to date. Mr. Mlnarik moved and Mr. Jacobs seconded to lapse the rest of the list. MOTION CARRIED UNANIMOUSLY.

XIV. Future Board Items

Mr. Palmer asked that discussion of principal or officer of the firm be on the December agenda.

XV. Future Board Meetings

- December 1 - Phoenix
- March 2 - Tucson
- June 1 - Phoenix
- August 24 - Flagstaff
