It was moved by Dr. O'Bannon and seconded by Mr. Cella to grant registration to both the professional applicants and the in-training applicants listed on pages 8-9 of these minutes. Motion Carried.

V. COMPUTER ACQUISITION ASSISTANCE AGREEMENT REVIEW - Proposal submitted by Dr. Lundgren

Dr. O'Bannon declared a conflict of interest regarding the contract by Dr. Lundgren. Mr. Palmer read the contract to the Board for their preview. The board members read copies of the contract and it was discussed. Mr. Dalrymple informed the Board that Dr. Lundgren stated that if it got down to finishing the contract and it exceeded the number of hours that he estimated that he wanted to see it through and there would be no additional charges. Mr. Riggs stated that the maximum fee would be \$3000! Ms. Morris asked if the promise had been given in writing. Ms. Morris suggested getting it in writing. Mr. Riggs questioned about the budgeting for this. Mr. Dalrymple informed the board that we have \$28,000 in this year's budget for the acquisition of computer equipment and it would come out of that funding. Mr. Palmer wanted to know what had happened to information that Ms. Ross had obtained in reference to computer equipment. Mr. Dalrymple informed the Board that essentially it was unusable. He advised the Board of the extent of her review. The Board discussed the acquisition of the computer system and Dr. Lundgren's experience. Mr. Palmer expressed concern about the time schedule and whether we had to spend the \$25,000 before the end of the fiscal year. Mr. Dalrymple stated that we have to have it committed prior to July 1, 1984 or we take the chance of losing it. Mr. Palmer asked if the Board would have to go through a bidding process and was informed by Mr. Dalrymple that it would be necessary.

It was moved by Mr. Brown and seconded by Mr. Nunn that the Director and the Chairman close this without a second meeting. Mr. Riggs questioned as to whether it would include the timetable and the concern that Ms. Morris expressed. Mr. Brown stated that it was included. Motioned Carried. Dr. O'Bannon abstained due to conflict of interest.

VI. CLARB BYLAWS VOTE

Ms. Morris and Dr. O'Bannon had to leave due to conflict in their schedule.

Mr. Mlnarik discussed the CLARB Bylaws changes and vote that was being requested of the various member boards by CLARB. The Board discussed the changes. It was moved by Mr. Nunn and seconded by Mr. Palmer that

He discussed the need for a data terminal, considering the tremendous number of receipts generated in the office. Staff is handwriting receipts and averaging 20-30 a day, except when examinations are near than over 400 are generated within an eight-day period and the excess use of staff time is unproductive.

E. Budget Status - Mr. Dalrymple discussed the budget process relating that the budget has been before both the Senate and House, with both of the sub-committees passing the recommendation of the Joint Legislative Budget analyst. Ms. Ross had requested \$407,000 but the JLBC recommendation's recommendation calls for a reduction down to \$380,000. We have submitted an amended request for \$464,530. The increased categories were discussed and also what would happen if the sufficient funds were not granted.

It was requested, by Mr. Dalrymple, that the Board give some guidance for both staff and enforcement committees. The Board authorized the following policy guideline to be used until resolution is made at a later Board meeting: "you have to be prepared to show the Board that when you took this project on you went through this project with a fine tooth comb; you insured that it met all local codes and ordinances; you insured that the structural integrity of the building was adequate; and you made sure that it fit the site and you are willing to accept full liability for that building."

Mr. Nunn distributed a copy of architect versus engineer paper that explored the differences between the two fields. Staff was requested to reproduce copies and make them available to the Board.

A. Distribution of Newsletter - Mr. Dalrymple informed the Board that the newsletter was mailed to every registrant, all the professional associations, the educational institutions in the state, to the municipalities and state agencies and the libraries. He stated that the newsletter was very well received with overwhelming support that it be continued on a regular basis. He stated that staff will be attempting to put one out each quarter.

B. Computer System - Mr. Dalrymple stated that they have been working with

Dr. Lundgren and the Department of Administration, and they have come up with a possible solution where the Board can have what we feel we need and yet at the same time meet with the state's requirements for DOA control over the state's computer system, and assurance of compatibility. We now have a proposal to buy computer equipment, two IBM PC's, and one compaq PC, to be used in the Board's office. We would buy our own printer and all of the software appropriate and ancillary equipment to operate our system, and have the capability of operating it primarily as an in-agency computer system. We would then tie into the system "36" rather than buy the 20 or 30 megabit auxiliary storage unit. The Board would tie directly into the system "36," purchase a translator package, which would take the program from the micro computer convert into language that could be utilized on the mini computer and use the system "36" as a memory unit. If we have a complex or difficult program, we could then utilize the system "36" programmers and write it as a mini program. Mr. Dalrymple outlined the pros and cons to this type of a computer system and what additional software we would need to purchase. He will hear from Ben Froelich, Monday whether DOA is going to accept this proposal.

C. Budget Status

Mr. Dalrymple informed the Board that as of April 13, 1984 the Board had \$130,000 in available revenue. Projected expenses are: \$100,500 based on normal operating expenses between now and the end of the fiscal year. We have approximately \$29,000 not committed at this point for any definite items. We do have some equipment needs that have been delayed to ensure that the Board would have sufficient moneys to purchase them. He is requesting the purchase of a copy machine, one replacement IBM typewriter and a receipt machine, eliminating the task of handwritten receipts. He stated that if we buy these three pieces of equipment we will have approximately \$19,429 left at the end of the year, plus the money we have allocated to the computer system which is \$25,000. NCARB has changed their billing procedures and as a result we have extra money. Mr. Dalrymple discussed the \$413,000 1984-85 budget allocation.

D. Proposed Staff Duty Realignment

Mr. Dalrymple also discussed the new pay and performance system going into operation this year. Mr. Dalrymple informed the Board that new job descriptions and performance standards are to be completed by July 1, 1984. On July 1, the new performance standards will go into effect. He discussed the new pay system and the impact on employees. He stated that there may be some reallocation of duties within the agency. He informed the Board how he proposed to set up the organizational chart and who he would like to assign the responsibilities. He discussed the position reclassification regarding LaVern Douglas' position. The ramification on staff morale was outlined and the impact on the job classifications.

VIII. PUBLIC COMMENT

Prudence Lee was introduced to the Board as the new Joint Legislative Budget Committee analyst.

It was moved by Mr. Cella and seconded by Mr. Brown to send Mr. Dalrymple, Mr. O'Bannon and Mr. Palmer to the NCEE Annual Meeting. MOTION CARRIED.

D. Advisory Committee Appointments

It was moved by Mr. Cella and seconded by Mr. Mlnarik that the following appointments be made: Messrs: Zimmerman, Royden, Augspurger, Rau, Riley, Shah, White, Hess, and Modi. MOTION CARRIED. The rest of the applicants were assigned to individual Board members for review and a decision will be made at the next Board meeting.

E. CLARB Meeting - San Antonio

It was moved by Mr. O'Bannon and seconded by Mr. Palmer that Mr. Mlnarik represent the Board at CLARB's annual meeting in San Antonio. MOTION CARRIED.

F. Discussion of Aiding and Abetting

Mr. Palmer discussed some definitions that he had received from NCARB and requested that the Board review them and after the architects have held their meeting and reviewed the definitions that the Board make some decisions at the next Board meeting.

G. Discussion of Rule R4-30-222 and R4-30-224 Requirements

Mr. Palmer discussed the problem he had in reviewing files of applicants that are applying for more than one engineering registration. He distributed a copy of a form that he felt would be helpful in evaluating a registrant's file. The Board concurred with Mr. Palmer and stated that it would be more helpful than the present form being used. Mr. Palmer suggested that staff might review the form, check for accuracy, and put it into whatever format they would like.

H. Discussion of Landscape Architect surveying practices and limitations.

Mr. Palmer informed the Board that an ex-board member had telephoned to inform him that there is a landscape architect doing land surveying work. Mr. Mlnarik stated that he would meet with Mr. Palmer at a later date to discuss the allegation. The Board discussed the broad definition regarding land surveying and how each discipline would have difficulty in staying within the strict guidelines outlined in the rules. The Board discussed going to the enforcement committees for some direction regarding the definitions.

I. Appointment of FY '86 Budget Committee

The Board decided to appoint the same committee to the budget next year that served the last year with Mr. Nunn as chairman.

J. Board Member Robin Morris' Resignation

The Board expressed their thanks to Ms. Morris for serving on the Board. Ms. Morris expressed her delight in serving on the Board, she also expressed her delight in working with NCARB.

K. Board Member Charles O'Bannon's appreciation plaque was presented to him for his tenure as Chairman of the Board. He expressed his appreciation and stated that the Board, as it is made up today, is more efficient, and the Board has really moved ahead.

L. Board Policy Regarding Registration of Lapsed Registrants

Mr. Riggs reviewed the code regarding registrants whose registration has lapsed and has remained inactive for three years, stating that it authorized the Board to require a new application, accompanied by the fee for a new registration. Mr. Riggs requested that the Board issue a policy statement that states that if the three year period has elapsed that they must reapply and file a new application in order to be re-registered. It was so moved by Mr. O'Bannon and seconded by Mr. Brown. It was decided that if a person's registration has lapsed that it would be identified as lapsed in the roster and the number would not be reassigned. Mr. Riggs stated: "It is the Board's policy that if the three year period has passed the registrant would have to reapply and file a new application in order to be re-registered. MOTION CARRIED. It was decided that specific action would be taken by the Board regarding all lapsed registrants.

The special telephone conference meeting of the State Board of Technical Registration held at the Occupational Licensing Building, Phoenix, Arizona, August 3, 1984, was presided over by Vice-chairman Silas C. Brown at 10:05 a.m.

ASSENT: Elgie, Chairman
 Stewart Palmer, Secretary
 Paul M. Colton, Member
 Donald Minkirk, Member
 Jimmie Nunn, Member
 Charles E. O'Bannon, Member
 Lynn E. Peeland, Member

LeVern Douglas, Licensing Officer

The present constituted a quorum.

NOTE TO GO INTO EXECUTIVE SESSION

It was moved by Mr. O'Bannon and seconded by Mr. Palmer to go into Executive Session. MOTION CARRIED. The Board reconvened into Open Session at 10:15 a.m.

JUSTIFICATION OF EXAMINATION RESULTS

Mr. Palmer and Mr. Minkirk declared a conflict of interest on several individuals. The Board discussed having a quorum regarding granting of registration and it was decided that the Board had no input into the decision regarding the cut-off score in the examination and the Board members could therefore, vote on granting of license regarding the particular individuals.

It was moved by Mr. Peeland and seconded by Mr. Palmer that the Board approve the examination results as shown in Exhibit "A" pages A-1 through A-19. Mr. Palmer moved that the Board establish a raw score of 842 as a passing grade for the land surveyor applicants. Mr. Palmer requested that the motion be carried to eliminate those three people that the Board members had declared as conflict. Mr. O'Bannon stated that it would be impossible to approve this. Mr. Peeland requested a point of clarification due to the fact that if the three names were removed a special list would have to be made and voted on at a meeting other than the present one, since the Board would no longer have a quorum. Mr. O'Bannon stated that he did not see a conflict of interest and the fact that the Board did nothing to establish the scores. The Board will not be entering into a discussion of establishing a score on his own level, all he is doing is recognizing that it is a cut-off point.

II. VOTE TO GO INTO EXECUTIVE SESSION

It was moved by Mr. O'Bannon and seconded by Mr. Palmer to go into Executive Session. MOTION CARRIED. The Board reconvened into Open Session at 10:35 a.m.

III. CERTIFICATION OF EXAMINATION RESULTS

Both Mr. Palmer and Mr. Mlnarik declared a conflict of interest on several individuals. The Board discussed having a quorum regarding granting of registration and it was decided that the Board had no input into the decision regarding the cut-off score in the examinations and the Board members could therefore, vote on granting of license regarding the particular individuals.

It was moved by Mr. Penland and seconded by Mr. Palmer that the Board approve the examination results as shown in Exhibit "A" pages A-1 through A-19. He further moved that the Board establish a raw score of 64% as a passing grade for the land surveyor applicants. Mr. Palmer requested that the motion be amended to eliminate those three people that the Board members had declared as conflicts. Mr. O'Bannon stated that it would be impossible to remove them. Mr. Penland requested a point of clarification due to the fact that if the three names were removed a special list would have to be made and voted on at a meeting other than the present one, since the Board would no longer have a quorum. Mr. O'Bannon stated that he did not see a conflict of interest due to the fact that the Board did nothing to establish the scores. The member will not be entering into a discussion of establishing a score on his son's test, all he is doing is recognizing that it is a cut-off point.

We cannot be responsible for everybody on that list. Nothing was done to lower the score so that his son could pass, therefore, there should be no conflict of interest. The Board had nothing to do with establishing a cut-off score, all the Board is doing is voting to accept the score as presented to the Board. Mr. O'Bannon amended the motion to have Mr. Jack Touseull's name removed from the list until the Board receives an explanation of how his score was obtained. The amended motion was seconded by Mr. Palmer. The amended motion was voted upon and accepted. The amendment was accepted. MOTION ACCEPTED.

IV EVALUATION COMMITTEES, REPORTS AND ADOPTION OF REPORTS

It was moved by Mr. Penland and seconded by Mr. Palmer that the Board adopt the Evaluation Committee's recommendations as shown in Exhibit "B" of this agenda and that applicants #1 Askew through #583 Ziegler, as shown on Pages B-1 through B-19 of Exhibit "B" be granted registration with the appropriate registration numbers as shown in Exhibit "C" of this agenda, Pages C-1 through C-19, and that applicants Pond through Cassel as shown on Page B-20 be granted registration with the appropriate numbers, and Mr. James Germain be granted registration with registration #17590, and four additional names for land surveyors be added to the list with the appropriate numbers: Peter E. Bellius #17591; Michael G. Dole #17592; Paul D. Higgelbossom #17593; Boyd L. Schneiderwent #17594. The motion was amended to eliminate John Oltean's registration in mechanical engineering. Mr. Palmer stated that the application shows no experience in mechanical engineering. MOTION CARRIED.

- E. Discussion and Action - presentation of local registration certificates by professional societies - Mr. Dalrymple discussed having the professional societies present registration certificates. The societies have requested permission to invite new registrants to their meetings and present them with the certificates. It was decided that if Mr. Sheets expresses no legal objections to the societies presenting the registration certificates, and as long as there is a Board member present when the certificates are presented, the Board would endorse the recommendation.
- F. Discussion - Dept. of Corrections contract proposal - Mr. Nunn stated that at the last Board meeting copies of a Dept. of Corrections contract was distributed to all members. He informed the Board that since that time the problem has been resolved.
- G. Discussion - A.R.S. 32-122.01.D and Rule R4-30-222-practice under professional registrant - Mr. Dalrymple stated that this may require a law change in the future, but at the present there is a problem. Mr. Sheets stated that the Board should be liberal in considering any experience gained before April 16, 1982. Staff was directed to review the applicants who were denied for not working under a registrant and determine whether the experience was gained before April 16, 1982. Mr. Dalrymple stated that staff would review the denied files and report to the Board.

H. Discussion - Fire Protection Engineer request for speciality registration. A.R.S. 32-106.B Mr. Cella requested more information, and Mr. O'Bannon felt that there needs to be a legitimate program of study in the institutions in the states. He expressed strong opposition until there is some basis of fact in education. Mr. Dalrymple will report to the Board after he has some more information regarding the Fire Protection Engineer.

The following applicants, having satisfied the Committee that they are

A. Discussion - Aiding and abetting non-registrants - Mr. Palmer suggested that an ad hoc committee be appointed to come up with a definition of the term. Mr. Palmer was appointed chairman with the members from Tucson as part of his committee.

2. Seismic - studies seminar or treatise.
