STATE BOARD OF TECHNICAL REGISTRATION

JANUARY 13, 1998

9:00 A.M.

OPEN SESSION

Title II of the Americans with Disabilities Act (ADA) prohibits the Board of Technical Registration from discriminating on the basis of disability in its public meetings. Persons with a disability may request a reasonable accommodation such as a sign language interpreter by contacting Lucy Tories at (602)255-4053. Requests should be made as early as possible to allow time to accommodate the request.

NOTE: All items on the Agenda are presented for possible discussion and action by the Board. The Board may elect to take action on any item on the Agenda, even though the item is not specifically identified as an action item. Agenda items may be taken out of order to accommodate interested parties.

The Board may vote to go into executive session intermittently during the meeting on any of the following agenda items to review statutorily confidential materials or receive legal advice from counsel pursuant to ARS 38-431.03(A)(2) or (3).

STATE BOARD OF TECHNICAL REGISTRATION

FEBRUARY 10, 1998

9:00 A.M.

OPEN SESSION

Title II of the Americans with Disabilities Act (ADA) prohibits the Board of Technical Registration from discriminating on the basis of disability in its public meetings. Persons with a disability may request a reasonable accommodation such as a sign language interpreter by contacting Lucy Torres at (602) 255-4053. Requests should be made as early as possible to allow time to accommodate the request.

NOTE: All items on the Agenda are presented for possible discussion and action by the Board. The Board may elect to take action on any item on the Agenda, even though the item is not specifically identified as an action item. Agenda items may be taken out of order to accommodate interested parties.

The Board may vote to go into executive session intermittently during the meeting on any of the following agenda items to review statutorily confidential materials or receive legal advice from counsel pursuant to ARS 38-431.03(A)(2) or (3).

7. OLD BUSINESS

A. Standing Committee Reports

1. Legislative and Rules

Brief report given by Mr. Schneider. A meeting is scheduled for March 27, 1998, at 1:30 P.M. to address items left from the January Agenda. MOTION CARRIED.

2. Ethics

Mr. Tuttle informed the Board that NCEES is working on a manual and Case Book. A copy will be given to Staff for review.

3. Education and Examination

Mr. Barber reported a Type 2 examination for Geological engineering will be discussed at the May NCEES meeting in Scottsdale. NCEES no longer offers the Sanitary Engineer exam, and there's been some discussion of possibly using the FE Exam as an exit exam for universities.

4. Budget

Ms. Woods reported that revenues are up, there are lots of renewals and income from exam reviews. However, the Board can only spend what's appropriated. Staff is looking into the possibility of shifting some moneys to other areas so it can be utilized. A meeting was suggested after the end of the fiscal year.

8. NEW BUSINESS

A. REGISTRATION EVALUATION COMMITTEE RECOMMENDATIONS- Mr. Turek moved to accept the evaluation committee's recommendations. Mr. Baltes seconded, MOTION CARRIED.

*** END OF REPORT ***

Have been in contact with the publisher of the newsletter used by several state
engineer/inspector registration boards about the possibility of contracting out our newsletter. I
am now going to see if there is someone in Arizona that might want to bid on publishing rights.

The budget is tighter this year than any of the past 15 years because of unbudgeted expenditures
due to:

- Computer related problems
- Formal Hearings
- Accrued leave payoffs to terminating employees
- Additional board member travel
- Replacement of some agency personnel

However, Sheila and I are monitoring the expenditures and making adjustments where and when
necessary to ensure we don't "blow" our budget. We are programming expanded board member
travel for the last quarter of this budget year's anticipated expenditures.

Executive Director's Report
March 1998

Legislation

HB 2584 (Omnibus Bill)

The bill is scheduled to be heard in the Senate 3/12/98 at the committee level. An amendment has been prepared for consideration. Copy attached.

SB 1345 (Greenfields)

This bill was heard by the House Environment Committee 3/5/98 and passed with no amendments.

SB 1034 (Regulatory Reform)

This bill is still alive and is being moved over to the House for action. The bill is 118 pages long. A copy of the latest version will be provided to each board member next week

SB 1348 (Civil Action)

This bill should be scheduled for a hearing within the next two weeks in the Senate. A copy of the bill is attached.

Newsletter

I have been in contact with the publisher of the newsletter used by several state Engineer/Architect registration boards about the possibility of contracting out our newsletter. I am also going to see if there is someone in Arizona that might want to bid on publishing rights.

Budget

Our budget is tighter this year than any of the past 15 years because of unbudgeted expenditures due to:

- Computer related problems
- Formal Hearings
- Accrued leave payoffs to terminating employees
- Additional board member travel
- Reclassifications of some agency personnel

However, Sheila and I are monitoring the expenditures and making adjustments where and when necessary to ensure we don't "bust" our budget. We are programming expanded board member travel into the last quarter of this budget year's anticipated expenditures.

e.d. report
3/98

The joint appropriation sub-committee has recommended the approval of my mid-cycle budget request for \$106,300 and 11/2 personnel to handle Certified Remediation Specialist activity.

Internet presence/E-mail

The computer technicians still have not been able to get the office computers to interface with the U.S. West Westnet program and I have not been able to make it work on the computer at my home. I have been able to install Juno E-mail at the office (azbtrdir@juno.com) and my home (btrrd@juno.com) and I have been able to get connected to Compuserve at home and therefore can get into the NCEES, NCARB, CLARB, and other state's home pages. We are continuing to work on the troubles. I have been able to make a little headway on the possibility of using the remaining \$60,000 extracted from our reserve funds for the modifications to our computer system to meet year 2,000 needs. I might be able to use some of that money for a network connection to the MAGNET system at the capitol mall and pick up an Internet interface and employee desk e-mail program that way.

3/5/98 Last second update.

GITA has advised me that they are going to recommend the use of the \$60,000 to update our entire computer system and not only make it year 2000 compliant, but bring it up to GITA standards for a state system. This may also include the connection to the Internet and the development of a Home Page.

**Subject: Enforcement Case C97-115 - Gene K. Baxter
Conflict of Interest and Concern**

Dear Ron,

On March 6th the subject case was referred to a "... formal hearing and /or civil penalties..." (Item 6.C.8.) The Board agreed to act in place of the hearing officer on this case and on case C97-099 (I did not find this agreement in the meeting minutes). I received a letter from an old friend containing additional data on this case, not contained in the Board packet on March 6th. I read the data and turned the original material over to LaVern last Friday. On March 6th I did not agree with decision of the Board concerning the subject case. After reading the unsolicited material, my disagreement with the decision was reinforced.

Rather than compromise the Board's case with a predetermined bias on my part, I must recuse myself from any further involvement with this case. A copy of my Conflict of Interest statement is enclosed.

On a related matter, Mark spoke to me about holding this hearing and the hearing for case C97-099 on Thursday, June 4th, the day before our next Quarterly Board Meeting in Prescott. I have a problem with that date and place, and so do two other Board members I have discussed it with. This schedule would mean two full days away from our businesses for as many Board members that participated in the hearings (a minimum of five). That is unacceptable to three of us and I suggest it may also be objectionable to others. The two hearings should be scheduled (1) when the respondents can participate and (2) when most convenient for the Board members. I would appreciate your reviewing this matter with Mark.

Sincerely,

M. James Barber, P.E.

C. DISCIPLINARY ACTIONS

- 1. C96-114, Robert M. Paulsell, Land Surveyor #17418- Ms. Woods moved to accept signed consent which encompasses the following: 1) Administrative Penalty of \$1,500 in two installments. 2) Within 30 days of the effective date of the order, respondent shall correct his survey of 5/22/96 and record it with the county recorder's office. Within 45 days of the order, forward copies of the recorded survey to the affected property owners. Within 45 days of the order, provide written evidence to the Board of the recording of the survey and notification of property owners. Seconded by Mr. Turek, MOTION CARRIED.

For the record: Mr. Baltus and Mr. Tuttle abstained from any action due to a conflict of interest.

- 2. C96-162, Jerry E. Roe, Land Surveyor #26068- Mr. Tuttle moved to accept staff recommendation to revoke Respondent's land surveyor registration. Seconded by Mr. Folk. MOTION CARRIED.

For the record: Mr. Schneider and Mr. Scott voted against the motion.

- 3. C97-120, Donald E. Surface, Land Surveyor #16203- Mr. Tuttle moved to accept staff recommendation to accept signed consent which encompasses the following: 1) Respondent shall pay \$2,850.00 to Karlyn Robishaw within 30 days of the effective date of order and within 45 days of the effective date of the order, submit written evidence of restitution requirements to the Board. 2) Peer review of the next 6 land boundary surveys within 12 months of the Board's approval of a peer reviewer. Seconded by Mr. Schneider, MOTION CARRIED.

For the record: Mr. Scott abstained from any action due to a conflict of interest.

- 4. C97-037, Francisco F. Potestas, P.E. (Civil) #28374
- 5. C97-091, Francisco F. Potestas, P.E. (Civil) #28374

Ms. Woods moved to accept staff recommendation to accept signed consent order which encompasses the following: Respondent shall not engage, directly or indirectly, in the practice of structural engineering until he has successfully completed the professional structural engineer examinations. Staff was also directed to follow up

with Lake Havasu to ensure the problem was rectified. Mr. Schneider seconded, MOTION CARRIED.

For the record: Mr. Scott abstained from any action due to a conflict of interest.

6. C98-001, Arthur R. Freedman, P.E. (Structural) #15555- Mr. Scott moved to reject the signed consent agreement as presented and amend it to also include peer review of the 6 engineering reports within the next 12 months. Mr. Gardner seconded, MOTION CARRIED.

- D. DISCUSSION AND ACTION/C97-035, Joseph A Gervasio, P.E. (Structural) #05700- Mr. Gervasio and Counsel (Dwight Watland) were present. Mr. Watland and Mr. Gervasio went over some facts regarding this issue and feel the Letter of Concern should be retracted. Mr. Gardner and Mr. Baltes agreed the letter should not have been issued. Mr. Turek then moved for reinstatement to the advisory committee and publication of the reinstatement in the enforcement newsletter. He also requested the information packet on this case be presented at the next meeting and this item be included on the agenda for discussion. Mr. Baltes seconded, MOTION CARRIED.

For the record: Mr. Schneider, Mr. Scott and Mr. Folk abstained from any action due to a conflict of interest.

7. OLD BUSINESS

A. Standing Committee Reports

1. Legislative & Rules- Copies of current rule packages were provided and Ms. Aliabadi provided updates and answered questions.
2. Ethics- Mt. Turek suggested this be dropped from the standing committee list as it might be more appropriate as an AD HOC committee issue.
3. Education & Examination- Mr. Turek suggested this also be dropped from the standing committee list. Review of standing committees will be added to the next meeting agenda.
4. Budget- Budget report was reviewed. Committee has not met, but a meeting is tentatively scheduled for sometime before the next quarterly meeting.

Ms. Woods suggested a newsletter go out in July while we wait for a reply from JLBC on private party publishing.

NEW BUSINESS

8.

- A. REGISTRATION EVALUATION COMMITTEE RECOMMENDATIONS- Mr. Turek moved to accept the recommendations of the evaluation committee. Ms. Woods seconded, MOTION CARRIED.
- B. ARCHITECT EXAMINATION RESULTS- Mr. Schneider moved to accept the architect exam results. Mr. Baltes seconded, MOTION CARRIED.
- C. GRANTING OF REGISTRATION NUMBER- Mr. Turek moved to grant the following registrations: architects 32572-32579, 32614-32616 & 32670, landscape architect 32580, civil engineers 32581-32601, electrical engineers 32602-32606, environmental engineers 32607-32608, structural engineers 32609-32611, geologist 32612, remediation specialist/engineer 32613, architect in training 07367-07368. Ms. Woods seconded, MOTION CARRIED.
- D. REGISTRATION LAPSE LIST- Item was deleted from agenda. List is to be published in next newsletter before approval by the Board.
- E. ENFORCEMENT ADVISORY COMMITTEE CANDIDATES- Mr. Schneider moved to approve Nyal Niemuth, David Wahl, and Thomas Torok. Mr. Baltes seconded, MOTION CARRIED.
- F. ACCEPTANCE OF THE CALIFORNIA GEOLOGY EXAMINATION- Mr. Turek moved to accept the California exam as an equal to the Arizona exam and directed staff to contact the California Board. Mr. Baltes seconded, MOTION CARRIED.
- G. HANDLING EXAM RESULTS, REGRADE REQUESTS AND GRANTING OF REGISTRATION NUMBERS ADMINISTRATIVELY- Ms. Woods moved regrade results and granting of registration numbers be assigned by staff and an F.Y.I. be presented at board meetings. Items A, B, and C are to be added to telephone conference agendas. Motion was seconded by Mr. Schneider. Item was tabled until next telephone conference.
- H. CONTINUING EDUCATION POLICY- Mr. Baltes suggested a sub-committee be formed to address this issue and volunteered to be a member. Other volunteers are: Mr. Schneider, Mr. Turek, Mr. Tuttle and Mr. Scott.
- I. CROSS DISCIPLINE POLICY- The Board concluded that there are some situations in which peer reviewers of more than one category are in order and should be handled on a case by case basis. Mr. Folk suggested when cross discipline issues come up, more guidance should be provided to the Enforcement Advisory Committees as to what to put into the recommendations, and also to the registrant as to what categories would be appropriate for peer reviewer submittals.
- J. DEFINITION OF PEER REVIEW- Mr. Baltes voiced concerns on the meaning of "peer review" and requested clarification and other member's opinions on this issue.

- K. AD HOC COMMITTEE REPORT/SUBMITTALS TO PLANNING AND ZONING COMMISSIONS OR BOARDS OF ADJUSTMENTS AND WHETHER THEY SHOULD BE PREPARED AND SEALED BY REGISTERED PROFESSIONALS- Mr. Gardner provided a written summary of the committee's findings. He feels that because of the nature of the issue, it won't be easily resolved. He agrees that the present system is not a great one, but doesn't see a compelling reason for the Board to jump in and try to change it.

Sam West, Architect, was present and addressed the Board on his concerns. He feels some type of an acceptable agreement needs to be reached which protects the public's health, safety and welfare.

- L. WCARB REPORT- Written summary of last meeting was provided by Mr. Schneider. Subjects included: IDP, Electronics Plan Checking, Computer Testing, Strategic Planning, and Continuing Education.
- M. NCEES REPORT- Written summary was provided by Mr. Barber. Our Board hosted the Western Zone Meeting this year in May. Subjects included: NCEES Budget, Computer Based Testing, examination upgrading, and Continuing Education. NCEES Annual meeting will be in Hawaii in August.
- N. OCTOBER 1997 CIVIL ENGINEER EXAM REGRADE RESULTS/Frederick Sargon- Ms. Woods moved to accept the regrade results, receiving no additional points. Mr. Baltes seconded, MOTION CARRIED.
- O. EVALUATION OF APPLICATION UNDER A.R.S. 32-122.01.E/REVIEW OF COMPARABLE EXPERIENCE/ Stephen Sutherland- Mr. Turek moved to approve 20 months of comparable experience. Ms. Woods seconded, MOTION CARRIED.
- P. EVALUATION OF APPLICATION/Stephen Ray Thompson- Mr. Thompson was present and summarized his situation for the Board.

Mr. Turek moved to approve Mr. Thompson's application for registration under 32-122.01.A3 as he has taken and passed the national examination. Mr. Baltes seconded, MOTION CARRIED.

For the record: Mr. Folk abstained from any action due to a conflict of interest.

- Q. EXECUTIVE DIRECTOR'S REPORT- A written report was provided for the Board. Subjects include budget, legislation and personnel issues.
- R. NCEES POLICY ON STRUCTURAL II EXAMINATION REGRADES/Dolores K. Triviz- Licensing Manager informed the Board that NCEES does not accept regrade requests for the structural II exam. Mr. Scott thinks no choice is unacceptable, there should be a recourse. Ms. Aliabadi pointed out the right for a regrade is in the Rules. Mr. Turek Suggested using a technical expert such as a college professor do the regrades. Ms. Douglas informed that a local regrade could be arranged, but NCEES will not recognize it. No motion was made on this

item; the Board directed staff to notify Ms. Triviz of this information. For the record: Mr. Folk recused himself from this issue due to a conflict of interest.

- 9. FUTURE AGENDA ITEMS
 - 1. Standing Committee Review
 - 2. Board Newsletter
 - 3. Web Site Update (GITA)
 - 4. Continuing Education
 - 5. Election of Officers
 - 6. Revoke/Suspend

10. FUTURE BOARD MEETINGS- August 28, 1998, Flagstaff

11. ADJOURNMENT- Mr. Turek motioned to adjourn and Mr. Turek seconded. The Meeting adjourned at approximately 5:10 P.M.

As the Board's request we also increased our out of state travel budget to accommodate our participation at regional and national meetings of national councils.

Several positions were reclassified after position audits were conducted and the personal services of our appropriation had to be increased proportionately.

LEGISLATION

The Greenfield Remediation bill was signed into law by the Governor the last week of May. The requirements for certification were moved from ADEQ statutes to our statutes (32-2534).

The last information I had (5-4-98) was that our number bill (HB2534) was at the Governor's office awaiting her signature. As soon as we get a copy of the bill I will send it to our budget number for review.

APE has provided a recap of legislation passed affecting engineers and some other professions. A copy is attached.

Patricia A.D. Alabau did an excellent job of tracking legislation and assisting in developing responses to proposed changes.

PERSONNEL

We had two employees, Pat Maxwell and Phyllis Ruster resign and we are currently in the process of filling those positions. Kalise Echeverria, former investigative intern, now temporarily filling a position that needs handling in the enforcement section, will be leaving us this month to accept a job with volunteer service for the federal sector. I tried to talk her into staying with us but she is being worked by assignments in exotic places like Louisiana or Idaho. She will be missed.

We are in the process of hiring one new full time investigator and a half time information management specialist to fulfill FY99 objectives for the Remediation specialist program. (Develop remediation and handle complaints).

Executive Director's Report
June 5, 1998

I. BUDGET

While the budget is tighter this year than any of the last 15 years. We will not overspend our appropriation. I have placed some items on hold until July to be sure that we stay within our appropriation. A number of things happened this year that created a little bit of anxiety. The cost of operating and maintaining our computer system increased from a norm of about \$25,000 to over \$35,000. Our hearing costs went from \$0 to over \$5,000. Additionally, we paid out about \$8,000 to departing employees for accrued vacation time. The required modification of our database program to protect registrant home addresses and phone numbers also cost about \$5,000.

At the Board's request we also increased our out of state travel budget to accommodate more participation at regional and annual meetings of national councils.

Several positions were reclassified after position audits were conducted and the personal services area of our appropriation had to be increased proportionately.

II. LEGISLATION

The Greenfield Remediation bill was signed into law by the Governor the last week of May. The requirements for certification were moved from ADEQ statutes to our statutes (32-131).

The last information I had (6-4-98) was that our omnibus bill (HB2584) was at the Governor's office awaiting her signature. As soon as we get a copy of the bill I will send it to each board member for review.

ASPE has provided a recap of legislation passed affecting engineers and some other professions. A copy is attached.

Assistant A.G. Aliabadi did an excellent job of tracking legislation and assisting in developing responses to proposed changes.

III. PERSONNEL

We had two employees, Pat Maxwell and Phyllis Rueter resign and we are currently in the process of filling those positions. Kellee Echeverra, former investigative intern, now temporarily handle anything that needs handling in the enforcement section, will be leaving us this month to try her wings with volunteer service for the federal sector. I tried to talk her into staying with us, but she is being wooed by assignments in exotic places like Louisiana or Idaho. She will be missed.

We are in the process of hiring one new full time investigator and a half time information processing specialist to fulfill FY99 objectives for the Remediation specialist program. (Develop an examination and handle complaints).

DRAFT REPORT -

ad hoc committee
Do submittals to Planning & Zoning Commissions and Boards of adjustments need to be prepared & sealed by registrants?

5/20/98

Committee members:

- Joe Gardner, architect, member SBTR
- Jane Bristol, City of Prescott, Community Development Dept.
- Angela Dye, landscape architect
- Sam West, architect
- Dava Hoffman, planner
- Dwight Busby, architect & engineer, ex member SBTR

Staff assisting the committee:

- Lavern Douglas
- Gretchen Aliabadi
- Ron Dalrymple

Others providing information to committee:

- Bob Hunt, architect
- Dave Freedberg, architect
- Mike Rozycki, Yavapai County Planning Dept.
- Martin Ince, City of Flagstaff Planning Dept.
- Ray Jacobs, City of Glendale Planning Dept.

SUMMARY:

The committee's opinion split into 2 basic positions. The majority of the committee agreed that the current SBTR policy of enforcing the existing rules on a case by case basis was proper. Sam West and Bob Hunt would like the Board to take a more active role and to insist that Cities and Counties require that commercial projects greater than 3,000 sq. ft. not be accepted for any review without a seal.

Probably the best summary of the majority opinion was included in a fax from Dwight Busby:

1. Question: How is the health, safety & welfare of the public harmed if a sketch is submitted to a planning board on how a property is to be used? Answer: No harm.
2. Question: When is it necessary to have plans sealed by a registrant? Answer: When the owner decides to construct the project and applies for a permit.
3. Our recommendation: Hands off.
4. What should Board and Staff tell Cities & Counties? To follow State Law, see rule 32-144.
5. We must not & should not force individuals into hiring a registrant to prepare sketches to determine feasibility of a project, otherwise we could have the whole registration statute thrown out.
6. Let people do what they want until the project is in for permits - then health, safety & welfare come into play.

ADDITIONAL BACKGROUND INFORMATION:

One of the problems in attempting to direct the policies of Cities & Counties is that they have many different requirements for submittals to Planning Commissions. Most jurisdictions require only that a site plan be submitted while a few require more detailed plans early in the review process. The City of Prescott has an initial review (Development Review Committee or D.R.C.) that is a required first step for all commercial development. For their most recent 20 projects, 19 were prepared by architects or engineers. When a commercial project over 3,000 sq. ft. is submitted, the applicant is told in the D.R.C. report that they will need a registrant to proceed with the project. Prescott only requires a simple site plan for this review. Obviously, this system works for Prescott. The City of Flagstaff requires that floor plans & elevations be submitted for their Development Review Board (D.R.B.) but they do not require a registrant until plans are submitted to the Building Department.

In addition to the difficulties in coming up with a State wide policy for all jurisdiction there is the difficulty of telling Cities & Counties how to run their internal affairs. Gretchen advised us that we can't tell the Cities & Counties how to enforce our rules but that we can use our enforcement division to go after individuals who are practicing landscape architecture, architecture or engineering without a license.

Another aspect of ^{THIS} issue is how big a problem is this? If the City of Prescott already has 19 out of 20 site plans (no floor plans or elevations) prepared by registrants, they do not appear to have a problem. Additionally, my understanding is that 'planners' can prepare site plans for preliminary review and that registrants can submit plans marked 'preliminary' or 'not for construction' without sealing them.

Angela Dye polled attendees at a recent ASLA convention and found that most of the states require a registrant's seal when plans are submitted to Building Departments but that a growing number of states (currently 6 states, by her count) require sealed plans for any formal review by a Board or Commission. Most of these states allow for a pre-meeting discussion using unsealed sketches.

1. Followed attached agenda from last meeting. We had not advanced too far on said agenda, therefore, we are continuing on the January 29, 1998, Agenda. (Copy attached.) ✓
2. We had made a report to the full board at our March 5, 1998, meeting. We had mainly just talked about HB 2139 and timetable at the January 29, 1998, meeting.
3. Started with Item 3 - This was to determine if R-30-301B should be removed (proposed by Doug Folk at one of our Board meetings...from January 31, 1997). Relates to gross negligence.

Doug Folk said he had originally felt the rule should be removed as it didn't add anything to the Board's regulatory powers. It could have impact on other matters outside of the purview of the Board because it says if you violate another portion of the rules, then if upheld, it automatically makes one in gross violation of the rules. Doug suggested to just drop it. It doesn't add anything to the process.

Herb stated this was previously moved and voted to be removed. Gretchen said she would take care of it.

4. Have another civil appointed to Board. Herb stated Mr. Barber had asked for help on applications. If we do get another person appointed, we would have ten on Board. Is there a problem with an even number? Comment was made that a certified Greenfield person might be appointed. Ron had said if you add, you should add two people. Gretchen thought it would be one registered and certified remedial specialist and one remedial specialist not registered. Tina asked why one could not be civil. Bill somewhere in legislature as per Gretchen.

Herb stated Board knows how he feels about the whole Greenfields things. Herb felt having two of them on the Board registered or not is ridiculous. How do we fight it?

Gretchen said we don't leave it an even number. Who reviews Greenfields certifications? Geologist. James Barber feels civils are disproportionately represented on the Board.

James feels a Greenfields non-registered member will come on the Board. Lori Woods wondered how much interest they would have in our normal Board functions. Barber said not to try to micro manage legislature and have Greenfields person on Board. We would create fragmentation if we push for another civil. . . go for a Greenfields who might be a registered engineer.

Herb stated the idea was to get another civil to help civil on Board in reviewing applications. Also, we are the Technical Board of Technical Registration. . . we should be the Board of Professional Registration. Lori agreed title of Board is misleading.

Doug felt it would be good to have another engineering member on Board. If Greenfields person appointed, get another engineer in addition.

Lori felt the workload issue should be separated from the idea of adding a member to the Board. Could have outreach to advisory board help on reviews.

Greenfields bill is SB 1345. ADEQ don't have qualified people.

Herb asked about the fact the Greenfields Law was a pilot program to look at 100 sites. Now it seems it is expanding to make a permanent program in our statutes and ADEQ's statutes. Gretchen says, it was a pilot program, yes, it is being expanded and it is not going to go away.

Motion: by James Barber, second by Doug Folk:

Direct Dalrymple to ask Board if there is someone appointed in the Greenfield area, respectfully request that they to make an odd number on Board that they also appoint an engineer and consider removing limitation of just one civil from the current statutes.

Passed: Unanimously.

Herb asked Gretchen to get this to Ron D. Herb asked it to be put on agenda for the 10th of April if this is being considered in the legislature.

5. How not to have Board review all enforcement actions:

Consent agenda is already being used. James Barber felt a wise idea would be to send out six Conflict of Interest statements to speed up discussion if person is in or out of process. Would allow faster process on consent agenda.

Doug felt grouping of items that are no discussion type, should be labeled on agenda as, "Consent Items".

James felt we have procedure. Herb felt we must be careful, we just don't accept everything staff gives us. . . we must review on our own.

Laverne will send each Board member six copies of Conflict of Interest forms.

6. Ten year requirement clarification (Bob Baltes feels experience more important than exams).
Registration without examination?

Herb stated Bob Baltes feels not logical. Herb stated NCARB eventually will review all AIT applications. Not states. Will get NCARB certifications and then applicant will go to states

to get individual state registration. Also NCARB saying you must have a degree or you never get registration. Herb spoke to Ron about this. Ron favors process. . . this disturbed Herb as we are losing our control. Some states will not give reciprocity if you haven't been through IDP program.

Lori felt our law does focus on experience. Discussion on fact that rules do not say experience is important. Don't need degree in this state.

James Barber stated that our review form doesn't really lead itself to analysis experience. We depend an awful lot on the registrant recommending said applicant.

Herb will bring it up with Bob again. Herb tabled.

7. Incorporate IDP program for Architects in Rules.
Herb stated many states will not give reciprocity unless applicant has gone through IDP. Herb feels we should adopt something in our rules so that an applicant gets a broad background of experience before they become registrants.

Rob Burgheimer wrote up a proposed addition to the Rules (see attached, dated March 13, 1998). This is in line with what the Board has previously discussed.

James Barber felt these 15 points go a long way to give some structure to the training of an architect applicant. He pointed out the engineers have certain points of training. Brings us closer to NCARB IDP program and as long as we don't force them to go into \$1,000 exclusionary program and is a step in the right direction.

James Barber moved to adopt the recommendations and bring to State Board on 10th. Second by Lori Woods.

Passed unanimously.

Discussion pointed out merits of program. Reg Sydnor in audience felt it is a good program and would say items of work efforts be tabulated.

Exam Costs: At NCARB the costs were again talked about - \$1,000. Talking about going out to bid again on a testing group. The only one group free of Silvin & Chaunsey. NCEES, etc. are under them also.

8. Review issue of Titles of Statutory changes:
- Word, "Architectural".
 - City use of word, "Engineer".
 - "Unlicensed".
 - Use of professional titles.
- This went through state legislature and got thrown out by Hoppenthal, as far as the statement of unregistered people. Thrown out in study committee.

9. Structural Engineer exam requirement rules:
Be able to go from civil to structural without examination? Paul Scott had brought this up. He felt a person coming into state as civil and applies for structural here and might not have seismic but gets waiver of exam. Gretchen said Paul would get some engineers together to

discuss the problem.

James Barber said we have to strengthen our requirements so that an applicant must take the hours called out especially in lateral forces. Paul will be working on this.

10. Electronic copies of plans: (Staff working on.)

- How to identify them?
- Signature on disk?
- Signed "Originals".
- (See Item 11 of Jan. 31, 1997, minutes. Electronic seals.)

Herb read from Item 11 as per above:

"We presently allow computer seals but rules call out real signatures. It is unknown how the electronic process will work. Committee asked to have Mark Naugle talk with City of Tempe as to what they will be requiring."

See copy of said item - Issue, Problem & Possible Solution attached. (Put together by Frank Turek?)

Herb brought up portion of contractors doing "as-builts" on mylars which have architect's seal and signature on mylars. (Not prepared by Architect or Engineer.)

Ownership of the documents is another problem. Surveyors have a bad problem also.

Rob Burgheimer feels attached solution could be good temporary procedure. Rob stated the process with construction documents is very complicated right now.

Gretchen says this is incorporated into the Rules Change (draft) to R4 30-304C 12/14/97 Use of Seals. . .not at GRRC yet, but drafted. There are a series of draft rules changes that went to Board members on December 29, 1997. This is, therefore, in process.

Lori felt this should be in newsletter as most offices have concern.

Rob feels industry waiting for Board to give directions.

11. Work Experience Time.

See attached from August 15, 1997, Board meeting. Herb stated rules talk experience in two different areas. When one goes into hours and works overtime and actually gets his eight years in in less than 8 years.

James Barber says full eight years is the requirement. The 130 hours a month is only to determine how much one has to work to determine minimum requirement to have a full month's work credit.

Herb stated he had applicants working two jobs and gaining experience from both architects. Gave him credit for both jobs. Rob Burgheimer said some states had a minimum requirement and go by number of hours and no less than three years.

Barber feels should not be changed or interpreted other than eight years total school and experience.

Doug feels just cramming in hours is not gaining judgment background.

Herb stated we should rewrite to say three years with working at least 130 hours per month. Gretchen will work something out to re-write. Rob says IDP states three month continuous after three years of architectural school.

Lori Woods moved to have Board have rule change to add other language to R4 30-208 to clarify in form Gretchen can determine. Second by Doug.

Passed unanimously.

12. Limit of number of times to take exams. (Arizona one of the few states doing so.)
If one doesn't pass everything in five years, must take everything over again. Does not include AIT, just professional portion. Gretchen said we have changed this recently. One has to re-apply after five years and can then take exams for another five years. Leave as is.

13. Latest on Greenfields.
Still in legislature. On way to House Rules.

14. Review of word "incidental" as it appears on 32-143 and 32-144. (See Item 8 of January 31, 1997, Minutes.)

At that time a motion was made to go back to the professional societies to come up with compromise we could live with. Was seconded and passed. One idea was to take paragraph out. As per Gretchen, if you take the one word out, then anybody can practice anything, then better to take entire paragraph out. Gretchen never took position to do anything. Tina said AIA does not want to take out word.

Reg Sydnor. . . recommendation was to take out total paragraph of 32-143. Letters had come at that time a year ago. Recommendation also was to take the one word out of 134B because nobody can define the word "incidental". AIA Board had said don't remove, but get the word defined as per February Board meeting. Reg said definition is in front of code and says what architects and engineers can do.

Rob Burgheimer agreed that taking word out would create problems. Problem is defining the line of what an architect can and can't do.

Doug Folk has seen this same scenario play out in other statutes. Difficult to define what every license can or can't do. Should be left to be determined in each individual case. Need education of or to building officials.

Much discussion on subject. Yuma case brought up. Reg pointed out that it says if you are trained to do a task and you do it properly. . . you can do it.

Herb stated we go back to our January 31, 1997, meeting motion asking the societies to come up with their suggestions or compromises we can live with.

Gretchen feels the Board is still going to go case by case. Practice of architecture or engineering could be anything.

15. Revisit Review of R4-30-301 A5 (See Item 9 of January 31, 1997, Minutes)
Brought up by Reg Sydnor. Compliance, as he stated, is impossible. Can't abide by all codes, etc. as they, the codes, and governing documents do conflict. Was tabled in January 31, 1997, meeting.
Herb says every architect violates the law in every set of drawings they put out.

Barber feels should be left as is. Gretchen feels changing the rule will not help anything.

Decided to let the enforcement group set the standards - but registrant has to use his best judgment on how he applies codes, etc.

16. "Construction Administrator" in relation to design-build. (Was tabled at January 31, 1997, meeting.)
Question was how much authority does architect have? Does contractor dictate over architect?

Barber says rules will not effect or change the idea that the dollars will dictate what is built.
Herb said the architect or engineer is still the responsible party.

Much discussion. Nothing resolved. Herb felt AIA newsletter could state and talk about problems of Design-Build and responsibility of architect and engineer and how they still have to maintain Health, Safety and Welfare.

17. R4-30-204E (Was tabled at January 31, 1997, meeting, see Item No. 13.)
Gretchen says this is in rules changes she is taking care of.

18. Rule change to drop a category.
This was dropped.

19. Licensing Time Frame Schedule (GRRC).
Gretchen didn't know where this stands right now. Nothing has really changed since our last meeting. A lot of proof reading has taken place. Verbage may change. Gretchen has James Barber's letter.

This whole thing was required by legislature. GRRC approves the rules and then has public hearings. May be finalized by October, 1998.

20. Change of name from "State Board of Technical Registration" to "State Board of Professional Registration".

Herb says this is one of his pet programs. We won't do much for this legislative session.
Lori said when we do get something going, she will be there with me.

21. Co-sealing of plans.

We received nothing from Janice Burnett or Ron Dalrymple. Doug feels we have gone around and around on this.

Do proceed on changing. Moved to go back to previous wording. . .by Doug. Second by Lori.

Passed unanimously.

22. Eliminate need for rule change every time we change fees.
Gretchen says this is done.

23. Tabulation of Motions to make motion for next Technical Board Meeting.

24. Continuing Education.

Six states now require continuing registration. Herb learned interesting things at WCARB and will be reporting on said ideas. It operates at re-registration time on honor system. Tina says AIA will drop membership if you don't comply.

Lori didn't know if landscape group requirement in any state.

Barber says we have power to do under our statutes. Engineers are doing in 30 states. The surveyors are looking at it. Will probably be mandated shortly and the Board should be ready to set it up. We need to come up with more information.

Lori said this should be professional society driven. Tina said AIA of state is moving in this direction. Lori asked if we do or let the society set up and administer it.

Herb stated AIA requirements and the six states that require continuing education don't agree on level needed. We need to get some correlation. Tina said Minnesota just passed such a law. She will check how they are doing it.

Barber says... let us gather information, on all professions. Get best parts of all and set up administrative process.

Mr. Barber moved we adjourn at 4:35 P.M.

Respectfully submitted:

REPORT
WCARB ANNUAL MEETING
WESTIN HOTEL AT TABOR CENTER
DENVER, COLORADO
March 19, through March 21, 1998
(Partly Combined Meeting Between Regions 6 and 3)

Attended By: Ron Dalrymple
Joseph Gardner
Herb Schneider (Voting Member)

Thursday, March 19, 1998

Ron attended all-day meetings. Board Administrators Meeting and Executive Committee Meeting. (Joe and Herb not part of these.)

Friday, March 20, 1998 - First Business Session

Highlights of Discussions:

- Report was made that our WCARB financial situation is good. (See financial report attached.) We hold our own financially in all respects except for the WCARB Annual meeting where we loose on the registration fees. This was noted on to be raised from \$125.00 to \$200.00 which will then cover all expenses.
- Dennis Patten, WCARB Chairman, stated that the body had voted to allow the Board to raise the member dues by \$1,000.00. This increase was never enacted as the money was not needed. Vote was taken to rescind this increase and so passed.
- Dennis Patten stated Region 3 has had an Education Committee which talked about:
 - Education of Architectural Students
 - IDP
 - University Curriculums

Friday Round Tables

Electronics Plan Checking:

- Presentation by Ben Weise.
He was a building official and plans examiner. Developed computer program that can be used by building plans checker or architect to check to see if he has covered all facets of code.
- International Plumbing & Mechanical Code has been published.
- In year 2000, will have only one code - International Building Code.

Impediments to Reciprocity

- Not having IDP.
- See attached for IDP states, etc.
- States also requiring continuing education - Alabama and Florida have so required to renew license.
 - Set up on basis of honor system of registrant to say he has so complied.
 - A certain number are audited and if found not true, cancel registration.
- NCARB set up model procedure.
- AIA has continuing education requirements. It does not coincide with states or NCARB.
- Need to have all societies, NCARB, states have common requirements.
- Self directed studies? Could be OK.

Ms. Woods nominated Mr. Schneider for Board Secretary and was seconded by Mr. Turek. Mr. Scott then moved to close nominations and elect Mr. Schneider by acclamation. Mr. Tuttle seconded. MOTION CARRIED.

J. CONTINUING EDUCATION- Discussion on whether continuing education should be mandatory or not. No motions were made on this item.

K. EXECUTIVE DIRECTOR'S REPORT- Mr. Dalrymple provided the board members with a written report. Subjects covered were: Revocation -vs- Suspension, Ethics courses, Communicating with Professional Societies, 1998 Legislative updates and new forms intended to avoid advisory committee member's conflicts of interest.

L. STANDARD OF PROFESSIONAL CARE FOR ON SITE SEPTIC TANK EFFLUENT DRAINFIELDS IN ROCK OR CREVICED FORMATIONS- The Board reviewed information presented and discussed the issue at length. The Board agreed it is the local jurisdictions responsibility to deal with this issue and not the Board's. Mr. Turek moved to take no action on this item and directed the Executive Director to draft a response letter to Respondent explaining the Board's position. Mr. Barber seconded, MOTION CARRIED.

M. SUGGESTED PROCESS FOR THE ADMINISTRATIVE HANDLING OF THE FOLLOWING:

1. AUTOMATIC GRANTING OF REGISTRATION AFTER SUCCESSFUL COMPLETION OF EXAM PROCESS- Mr. Barber moved that after Board approval of candidates for examination and registration, staff report at each subsequent meeting of the Board the names, categories and registration numbers of all candidates successfully completing the examination process since the previous meeting. Mr. Scott seconded, MOTION CARRIED.
2. ISSUE A REGISTRATION NUMBER TO APPLICANTS WHO POSSESS A CERTIFICATE OF QUALIFICATION ISSUED BY A NATIONAL COUNCIL- Mr. Barber moved to initiate a process to recognize candidates in possession of a valid certificate of qualification issued by a national council identified in rule R4-30-207 and expedite the processing of their application. The process would allow such candidates' applications to be reviewed by staff, with final approval by the Board. Mr. Scott seconded, MOTION CARRIED.

Page 255
M1 + M2
Process for automatic granting of registration after successful completion of exam process

For the Record: Mr. Turek voted against the motion. Mr. Baltes had to leave the meeting prior to this discussion and vote.

Generally suspension is used in those cases where there is a reasonable belief that the person can be rehabilitated. Revocation is used when there is a reasonable belief that the person can not be rehabilitated.

College Courses in Ethics

You have been provided with literature on the special ethics courses that we know are being used by registration boards to assist in the resolution of complaints.

Communicating with Professional Societies

Board members have been making themselves available to their professional societies as they see fit.

I have been available to meet with professional societies at their request. Other key staff members are also available in case I am not available or it would be appropriate to schedule them in my place.

Executive Director's Report

Revocation vs Suspension

The major differences between an act of revocation and suspension are generally:

- Suspension - Is for a specific period of time (Maximum 3 years) or until certain actions are completed;
the registrant remains on the rolls of the Board, and
the suspension is removed automatically by the Board after the suspension period is successfully completed.

- Revocation - The registrant is removed from the rolls of the Board, and
The ex-registrant must complete an application and apply for a new license if he/she wants to re-apply.

Generally suspension is used in those cases where there is a reasonable belief that the person can be rehabilitated. Revocation is used when there is a reasonable belief that the person can not be rehabilitated.

NCARB

ANNUAL MEETING & CONFERENCE
SAN DIEGO, CALIFORNIA

June 24-27, 1998

The conference was run on a quicker pace than last year. Procedures were changed to take away some of the long election sessions, etc. Arizona represented by Ron Dalrymple, Joe Gardner and Herb Schneider. (Schneider was voting delegate.)

Region 6 Meeting

- ◆ Ken Dubois voted to replace Alaska representative who resigned from Ex-Com. Ken also voted to be next chairman.
- ◆ March, 1999 Regional Meeting to be in Las Vegas.
- ◆ Year 2000 Regional Meeting in Santa Fe with Region 5.
- ◆ Will be rewriting bylaws.
- ◆ We voted to raise registration fee in Denver to \$250.00 to make conference self-sufficient.
- ◆ Bob Campbell, Director, gave report:
 - Examination rate up, but not great.
 - National NCARB hired a marketing consultant.
 - * All professions low for new candidates.
 - * Cost of exams not a factor.
 - * Use of computers not a factor.
 - * Interns busy.
 - * Interns procrastinate.
 - * Passing grades much higher.
 - Telemarketing working well.
 - * Calling candidates.
 - Will be new thrust on I.D.P.
 - Budget - Will have balanced budget this year!
 - International policy:
 - * Will be lower priority.
 - * Having dialog with China.
 - * United Kingdom to renew.
 - NCARB office now has 34 new computers.
 - Four (4) months backlog on I.D.P. previously.
 - * Now seven (7) days for initial evaluation.
 - Six (6) months time after initial review to notify candidates.
 - * Now 22 days.

Workshops

- Ron attended:
 - * Electronic Technology Task Force: Pros & Cons of Electronic Sealing
 - * Strategic Planning Rollout
- Herb attended:
 - * The Carnegie/Boyer Task Force Report: Refocusing Architectural Education, Training and Practice
 - * I.D.P. Workshop
- Joe attended:
 - * ARE: Cost Saving Measures and Exam Status
 - * Mandatory Continuing Education: Is it for your Board?
 - * His synopsis of the workshops he attended are as follows:

COMMITTEE WORKSHOP - ARE STATUS

The number of exam takers continues to be low, at about 30% of what was projected. One step that Sylvan is taking is to phone the exam candidates to encourage them to schedule their next section of the exam. This personal contact has helped speed up the numbers taking the exam, slightly.

NCARB still thinks that cost hasn't been a major factor in the drop in exams given, for two reasons: 1st, a candidate can pay for each section of the exam separately (and with a credit card); and 2nd, surveys that they have taken show that cost was not much of a concern to those who did sign up. NCARB believes that the lack of deadlines and the labyrinth of NCARB plus Sylvan plus State Boards is confusing and discourages applicants from starting the process.

Barbara Showers (Wisconsin), Chair of the Psychometrician Committee, will be auditing the exam and preparing a report in August.

There is a paper and pencil exam available as an emergency back-up, but NCARB has no intention of using it and intends to stay the course with the computerized exam. There appears to be a clear concern that if the number of applications for exams don't show some improvement, NCARB could be in a serious financial bind.

CONTINUING EDUCATION WORKSHOP

Kate Schwensen, Iowa, spoke. Iowa has the most experience (about 20 years) with mandatory continuing education. When they started it, they had 400 in-state and 900 out-of-state architects. The first year, about 400 registrants dropped their Iowa registration. Most of these were out-of-state and no other states required continuing education at that time.

NCARB
Annual Meeting & Conference
San Diego, California
June 24-27, 1998
Page 4

Continuing education is seen as a benefit to the profession, but there is no way to measure its effectiveness. At the convention, a survey of California architects was passed out showing that most of them thought that mandatory continuing education was a good idea and helped the profession, but a majority didn't want it to be mandatory.

One of the reasons that NCARB encourages continuing education is because their "Monographs" (continuing education by mail) are money makers.

Most State Boards honor any other state's continuing education requirements as adequate to simplify the process both for the registrant and the Boards.

Comments

1. Bob Campbell of New Mexico, our Region 6 Director, was elected NCARB Treasurer in a runoff election.
2. Dennis Patton, therefore, becomes our new Region 6 Director. (This had been voted upon in Denver, that he should succeed Campbell if Campbell won his seat as Treasurer.)
3. Joe Giattina of Alabama is now 1st Vice President.
4. President, Ann R. Chaintreuil, goes out as President and Susan May Allen takes over. Both very dynamic people.

4. Newsletter
Procurement sent the Newsletter RFP out a second time with modification. Only one company bid on the project the first time - the original offeror. The offeror now has a problem with a provision in the contract relating to advertisements (see attachment). I am discussing the provision with state procurement.
5. Information and Technology
We are developing our website ability to add new information to the website. We are also working with DCSA to improve their ability to update our database information on a weekly basis. To assist in this effort we just purchased a Windows NT software program for the website server to facilitate the updates.

DCSA is supposed to be ready to install our new network equipment and software in January.
6. Certified Remediation Specialists
I am meeting Tuesday with Senator Spitzer and staff to discuss legislature and ADEQ plans for the program. We have 31 certificate holders - no sites certified by ADEQ. We have a plan at ADEQ to create a real need for certification. We also have a legislative mandate to create an examination within the next 6 months.

Directors Report

December 98

1. **Budget**
Budget hearings for FY 2000 – 2001 will probably start in early February.
2. **Rules**
The time frame rules are now in effect. The Secretary of State's Office has not yet placed them on their website. We have asked them to give us a target date for this action. We may have to put them on our own site if they aren't going to do it in a timely manner.
3. **Staff Additions**
Administrative Assistant
Information Specialist
4. **Newsletter**
Procurement sent the newsletter RFP out a second time with modification. Only one company bid on the project the first time – the original offeror. The offeror now has a problem with a provision in the contract relating to advertisements (see attachment). I am discussing the provision with state procurement.
5. **Information and Technology**
We are developing our in-house ability to add new information to the website. We are also working with DOA to improve their ability to update our database information on a weekly basis. To assist in this effort we just purchased a Windows NT software program for the website server to facilitate the updates.

DOA is supposed to be ready to install our new network equipment and software in January.
6. **Certified Remediation Specialists**
I am meeting Tuesday with Senator Spitzer and ADEQ to discuss legislature and ADEQ plans for the program. To-date we have 31 certificate holders - no sites certified by ADEQ; no apparent plan at ADEQ to create a real need for certification. We also have a legislative mandate to create an examination within the next 6 months.

MEMORANDUM

7. Direct Examination

I recommend that the Board open up the examination process similar to the way it is being done in Utah and Michigan by allowing direct application to the test procedure through our test vendor prior to application with the state.

Applicants would apply directly to the test vendor for examination and test scores would be reported to us for record keeping, but an application would not be accepted until the applicant successfully completed the examination process. This procedure would reduce the length of time the Board would have to deal with an application thereby reducing the possibility of time frame problems. It would also give the potential applicant an opportunity to integrate the examination process into the 8-year education/experience time frame and possibly complete all requirements for registration sooner than can be done under the current program.

It appears the program could be launched immediately as a voluntary option and no rule changes would need to be made.

- 1. Should we have mandatory continuing education?
- 2. Should we have self-certification? (No policing, no records)
- 3. If there is strong differences we agreed to host a debate of the pros & cons.

Phase III -

- a. Provide details of the recommended CE program
- b. Get Gretchen's input, and agreement.

Phase IV - Public Hearing

Phase V - Implementation

Ground Rules/Notes:

- 1. Attempt to make our program revenue neutral.
- 2. Continue to collect data.
- 3. What are other jurisdictions doing?
- 4. What is AIA doing? (study)
- 5. What are other CE options doing?
- 6. Explain TRACON program.
