REPORT ON THE 2002 NCEES WESTERN REGIONAL MEETING IN SUN VALLEY,  
IDAHO – May 2-4

Attendees: Greg Tuttle, Claude Baker and Fred Goldman (reporter)

Without doubt the most important event was the election of the Western Regional Vice President who will serve for two years and then likely become the President-Elect of NCEES. The competition was fierce with much politicking. Our master politician, Claude Baker became the king maker snuffing out some concerns of veteran sage Greg Tuttle and sneaking a surprise vote change from the Hawaii delegate who had the misfortune of choosing our table to sit at. The vote was close but veteran Ken White was elected. He is a Professor and Head of the Civil and Geological Engineering Department at New Mexico State University and is a co-author of the White Paper on Using the FE for Outcomes Assessment. He is past chair of the EPE committee and is past chair of the Civil Exam Committee. He eked out his victory in a run-off election with the outstanding Nevada Surveyor Rita Lumos after "Sparky" Jill Tietjen from Colorado was eliminated.

The delegation took great interest in the interim results of the two year soul-searching effort of the ELQTS (Engineering Licensure Qualifications Task Force). The committee has identified four title descriptions, graduate engineers, intern engineers, engineers working in industry and not providing services directly to the public and finally professional engineers. It has identified four systems of licensure and has reviewed proposed licensure programs adopted by NSPE and ASCE. It is expected that the committee will change its composition soon with more involvement of NCEES people and less participation of stakeholder professional and educational organizations. The committee is expected to draft resolutions next year and present them to the 2004 Annual meeting. Then the fireworks will start. The committee may find some solutions to two problems: the industrial exemptions and the money losing Group II exams (the exams that are written by the professional organizations).

At the Engineers Forum the New Mexico delegation expressed its concern with the low pass rates of the Group I exams (written by NCEES - civil, mechanical, electrical, environmental, structural and chemical). Specifically, they propose reviewing the cut score system. When discussed in new business the Western Zone failed to support the motion but Idaho changed the resolution to be more general and it almost passed. We expect to see it again in San Diego. We opposed both resolutions (as did Hawaii again - he listened in to the superb wisdom of our sage delegates).

Should NCEES change its name? I expect will happen in a few years. I can just imagine the debate on the floor of the Annual Meeting.

Ted Fairfield, the current NCEES President expressed his frustration with ABET which (he believes) does not recognize the importance of requiring registered professors. He believes that someone will pull a rabbit out of a hat and NCEES will find a way to cooperate with Canada. (Don't bet on it - the only thing that Betsy Browne, the Exec. Director of NCEES wanted to know from me is if we were "talking" to the Canadians who were at the Western Zone meeting - wining and dining everyone within reach). Ted also wants to "stop the bleeding" from the Group II exams and prevent

"splintering".

LOWING APPLICANTS HAVE BEEN EVALUATED BY THE  
BOARD COMMITTEE AND IT HAS BEEN DETERMINED THAT THEY  
Bob Krebs, the President-Elect from Vermont described his program to keep exams as the most important task with emphasis on fairness and reliability and exam security. The registration review task force will continue and work on the strategic plan and outreach program will continue.

Next years meeting will be at the Rock Creek Resort at Red Lodge, Montana near Yellowstone National Park.

- b. Budget Committee – Mr. Tuttle and Mr. Dalrymple reported that there were no budgetary problems despite a drop-off in applicants and renewals. Mr. Dalrymple explained that this was the third year of the triennial renewal cycle and traditionally, those numbers were lower than the previous two years. The Joint Legislative Budget Committee had made an error in the amounts of the

personal services and employee related expenses allocations, but that error has been resolved.

c. Education and Examination Committee – Mr. Goldman had no report.

d. Home Inspector Rules and Standards Committee – Peter Leeds, Committee member, addressed the Board and reported on continuing efforts by the Committee to refine the rules and the certification process. (d) Council of Landscape Architectural Registration Boards (CLARB) – Ms. Lyndes distributed information regarding the recent annual meeting and two resolutions that came about as a result of that meeting. One was development of a model law, model regulations and uniform standards for continuing education and the second was an adoption of revised bylaws.

#### 12. EXECUTIVE DIRECTOR REPORT

Mr. Dalrymple reported that he has been appointed by the Governor to the Regulatory Reform Committee. That committee will review the functions of various agencies and recommend changes to the Governor's Office. He has also been appointed to the National Council of Examiners for Engineering and Surveying Law Enforcement Committee, and he is working in conjunction with Arizona Government University to implement a training program for regulatory investigators. He indicated that at the next meeting, the Board will be presented with a list of names for the formation of the Remediation of Drug Laboratory Sites Rules and Standards Committee. The agency is exempt from the rulemaking process for one year, but that time began running in August, 2002, and that no fee caps regarding applications or certifications were set by the Legislature.

13. PROPOSED MODIFICATION OF A.R.S. § 32-143 regarding defining areas of cross/practice and removing the terms "necessary and incidental" from the statute. After discussion, the matter was referred back to the Legislation and Rules Committee for further evaluation.
14. PROPOSED MODIFICATION OF A.R.S. § 32-101(B) (13) and (14) by adding the sentence "A firm also means any individual who offers professional services regulated by this Board, under a fictitious name." After discussion, Mr. Tuttle moved that the matter be referred to staff to investigate whether a "fictitious name" meant any name other than the registrant's name, including corporations. And, if so, the matter needs to go back to the Legislation and Rules Committee for further evaluation. Seconded by Mr. Roos. MOTION CARRIED.
15. PROPOSED MODIFICATION OF STATUTES – After discussion, Mr. Tuttle moved that the statutes be reviewed to replace the individually listed professions with the language "any board regulated profession or occupation" to make them all consistent with recent legislative enactment and that a sponsor be found to introduce the matter in the upcoming legislative session. Seconded by Mr. Roos. MOTION CARRIED.
16. PROPOSED MODIFICATION OF A.R.S. § 32-110 – After discussion, Mr. Tuttle moved that the statute be modified to remove the phrases "members of advisory" and "home inspection rules and standards committee" and replace that language with "committees of the board" in order to bring any future legislatively appointed committees under this umbrella. Seconded by Mr. Roos. MOTION CARRIED.
17. ENVIRONMENTAL REMEDIATION RULES AND STANDARDS COMMITTEE  
Mr. Dalrymple explained the nature and composition of the Committee and indicated that members should be appointed not later than the next meeting of the board. He proposed that the Board appoint an ad hoc committee to make recommendations of possible committee members to be presented at the next meeting. An ad hoc committee consisting of Mr. Starling, Mr. Pearson, and Mr. Roos was appointed.
18. APPROVAL OF HOME INSPECTOR RULES AS MODIFIED BY GOVERNOR'S REGULATORY REVIEW COUNCIL – The Board was presented with a time-line for processing these rules in order that they become effective prior to the expiration of the current emergency rules on February 15, 2003. It was suggested that the Legislation and Rules Committee proposed rule changes be incorporated into the home inspector rules, so that one package would travel through the process. A discussion was held, and concerns were raised regarding possible public objection to any of the proposed rule changes preventing the permanent rules for home inspectors from being enacted before the February 15, 2003 deadline. Mr. Tuttle moved that changes from the Legislation and Rules Committee proposed rules directly pertaining to home inspectors and that were recommended to be incorporated by the Governor's Regulatory Review Council, be included and that the home inspector rule package

proceed according to the proposed time-line. Seconded by Mr. Roos. MOTION CARRIED.

19. PROPOSED MODIFICATION OF R4-30-120 (B), (C), AND (D) – After discussion, Mr. Tuttle moved that the phrase “an informal conference” be removed from paragraph B and be replaced with the phrase “a meeting”; that the phrase “informal conference” be removed from paragraph C and replaced with the term “meeting”; and that the phrase “informal conference” in paragraph D be removed and replaced with the term “meeting”. Seconded by Mr. Roos. MOTION CARRIED.
20. PROPOSED MODIFICATION OF R4-30-123(B) - After discussion, Mr. Tuttle moved that the phrase “continuing education” be deleted and replaced with “appropriate professional education”. Seconded by Mr. Roos. MOTION CARRIED.
21. PROPOSED MODIFICATION OF R4-30-303(A) – Since the Board had already approved deletion of the appendices to the rules, Mr. Tuttle moved for the deletion of the references to the appendices found in R4-30-303(A) and R4-30-212(B)(8) . Seconded by Mr. Starling. MOTION CARRIED.
22. DISCUSSION OF DE MINIMUS VIOLATIONS – Mr. Driggs explained the nature of de minimus violations and indicated he believes the language in our statutes will support development of rules regarding such violations and for letters of concern to be issued for a finding of a violation of statute or rule. Proposed sample language for possible statutory and rule changes was submitted and discussed. After further discussion, Mr. Tuttle moved that this discussion be tabled and the issue go back to the Legislation and Rules Committee for further evaluation. Seconded by Mr. Roos. MOTION CARRIED.
- 22.1 DISCUSSION OF COURT OF APPEALS CASE DISCUSSING DUE PROCESS REQUIREMENTS AND THE POSSIBLE EFFECT OF THAT DECISION ON THIS BOARD – Mr. Driggs stated that the issues directly addressed in this case do not apply to this Board. However, he did indicate that the Enforcement Advisory Committee reports need to be more specific in terms of the violation, why it was wrong, and what would make it right if the matter was being recommended for hearing before an Administrative Law Judge.
23. PROPOSED REVISION OF R4-30-214(a) REGARDING INTERNSHIP DEVELOPMENT PROGRAM – Mr. Rob Burgheimer appeared before the Board and discussed the material submitted for proposed revision of the current rule. After discussion, Mr. Tuttle moved that the matter be tabled and made a continuing agenda item for the next quarterly meeting. Seconded by Mr. Goldman. MOTION CARRIED.
24. ELECTION OF OFFICERS – On behalf of the nomination committee, Mr. Tuttle recommended the following persons to be elected as officers of the Board:

Chair – Mr. Greenslade  
Vice-Chair – Mr. Goldman  
Secretary – Mr. Gardner

Hearing no objections and no other persons being nominated, Mr. Tuttle moved that the nominations be approved as stated. Seconded by Mr. Starling. MOTION CARRIED.

## 25. CONTINUING AGENDA ITEMS

- a. Training for New Board Members – Mr. Driggs discussed the training mandated for new Board members, as well as training the Attorney General's Office can provide in areas of open meeting law, conflict of interest, ex-parte communications and hearings before an Administrative Law Judge. Staff will provide the new members with training dates on the mandated training.
- b. Granting Claude Baker emeritus status – Mr. Goldman indicated that this would allow Mr. Baker to continue his work on the national committees and moved that the Board grant this status. Seconded by Mr. Tuttle. MOTION CARRIED.
- c. Discussion of Board policy regarding granting educational credit for persons with engineering technology degrees – After discussion, Mr. Goldman moved that the matter be referred to the Legislation and Rules Committee for evaluation. Seconded by Mr. Tuttle. MOTION CARRIED.
